What power supply should I use for a base station? Plan on using a 100w radio. Power supply for 100w radio base station

I've been using this power supply for my three base units for sometime and it's been doing great. Also, I was surprised on the physical size of this unit being small and it never seems to get hot.

13.8v and 30a is fairly standard for a shack. That radio should run from 11.73v to 15.87v but at 12v and 5 amps, you'll probably put too much demand on that little power supply. I use a switching power ...
