What is a bedside locker?

The perfect bedside locker is a small yet significant feature that anchors your bedroom's decor and integrates seamlessly with your bed and overall theme, so explore our guide to choosing the best bedside lockers to complete your room.

How do I choose a bed locker?

Once you have decided on the right size to start looking for, measure the available space beside your bed to ensure the locker you choose fits comfortably without overcrowding, and remember to opt for a table that aligns with your mattress top for easy access and a cohesive appearance.

Where should a bed be placed?

The best placement for the bed is against a wall in the center of the room. "This will give you enough space to highlight the layout of the room, and won't be visually overwhelming. Not only will it make the room look bigger, but it will make the space easier to navigate and give it a more natural flow," says Kreller.

In order to bring in daylight, walls aren't built all the way to the ceiling, or clerestory windows are installed facing the living room. Working in city real estate, I've seen a number of buildings done this way.

Usually, people place the head of the bed on the wall opposite the door (so that the foot of the bed is the first thing you see). However, doors can open onto a room rotated 90 degrees, as long ...

We've put together a collection of our favorite overbed storage ideas here, along with the experts' advice on creating them. The area over the bed is perfect for small bedroom storage ideas, ...

If you are thinking about placing a bed beneath a window, consider making sure that it doesn't interrupt the natural light you receive. Instead, placing your bed facing toward the window, ...

Looking for bedroom organization and storage tips? These 16 hidden storage ideas can help you declutter and maximize your bedroom space!

Can I put the lockers at the head of the bed

In this article, we'll show you how to choose the right location for your dresser--whether it's in front of an already-existing window or between your bed and door--and how to style it out so ...

Yes, you can place a tall dresser next to your bed, but consider if it will feel overwhelming while lying down. Taller dressers work better when positioned at least a foot away from your ...

When deciding to position a dresser at the foot of the bed, it is crucial to consider the size and scale of both the dresser and the bed. Opt for a dresser that complements the length and ...

Discover how to choose the perfect bedside lockers to meet your functional requirements and enhance your bedroom's ambiance.

"Placing the bed in direct line with the door can make you feel exposed and restless. In Feng Shui, this is also called the coffin position, which is believed to disrupt restful energy," says ...
