---

It can store electricity converted from solar energy, wind energy and other renewable energy sources. It adopts air/liquid cooling technology, which is cost-effective and easy to maintain and repair.

We provide tailored 100kW battery storage systems to meet your unique energy needs. Whether you need a basic setup or a high-performance system, we can help you create the perfect solution.

Whether storing excess solar energy or providing backup power during outages, our custom 100kw battery storage system addresses your unique energy storage requirements with reliability and ...

This solution uses 5 sets of 100kW/215kWh modular outdoor cabinet energy storage system, which support up to 15 units in parallel. It's an ideal choice for application scenarios such as factories, ...

Our expertise lies in designing and implementing customized new energy microgrid solutions, addressing issues such as lack of electricity supply, unstable grid and high electricity costs.

Packaging and delivery Selling Units: Single item Single package size: 115X90X227 cm Single gross weight: 1500.000 kg Show more

The MEG 100kW x 215kWh Cabinet is engineered as a modular energy storage building block, ideal for commercial facilities, microgrids, and community-scale projects.

Unleash peak performance and unparalleled security with our Air-cooled Energy Storage System. This modular powerhouse seamlessly integrates AI-powered intelligence for optimized operation and ...

CTECHI 100kW 215kWh/230kWh/241kWh BESS for commercial & industrial solar energy storage. High efficiency, scalable solutions. OEM/ODM available.

# Customized 100kW Energy Storage Unit for Farms

We specialize in industrial and commercial solar systems (for factories, agriculture, schools, villages, and building electricity) as well as BESS megawatt-level battery energy storage projects.
