The solar container includes lighting, access control, fireprotection, and air conditioning. 20h can hold 1000kwh battery, invertercombiner box or PCS, 40hg can hold 1800wh~2000kwh ...

Making of high-performance lithium iron phosphate battery pack used for wide application like: e-bikes, solar power systems, and home energy storage! Watch the step-by-step process from...

With our whole-hearted commitment to provide the most competitive customized charging battery solutions to customers worldwide, we are seeking global customers and partners to walk to the green ...

Our proprietary technology makes it possible to create custom battery packs to meet various operating requirements cost-effectively. See our cold temperature-tolerant custom battery pack, surge-and ...

Perfect for enthusiasts and professionals, our kits include everything you need to build a safe and efficient lithium iron phosphate battery system. Designed for solar storage, off-grid setups, and ...

A DIY LiFePO4 battery pack represents a revolutionary approach to energy storage that combines lithium iron phosphate technology with customizable design flexibility.

We are the original factory, specializing in reliable and safe new energy lithium batteries development and manufacturing. We have senior engineer team with more than 15 years experience in this field.

Customized 6.4V 30Ah LiFePO4 lithium battery pack -- high-capacity, long-life rechargeable power for solar lighting, backup systems, and outdoor equipment.

NPP New Energy is a Chinese high-tech enterprise providing customized home battery backup power supply solutions and products for special lithium solar battery systems for global users.
