We're researching who is adopting EVs, how they use them, and establishing a baseline to guide and forecast future asset investment planning. We'll be working with industry and councils to identify ...

Building awareness, accelerating adoption and coordinating development of electric vehicles and charging infrastructure throughout the Wellington Region. Read more [here](#)

As part of our Te Atakura (First to Zero) implementation plan, we aim to replace all Council owned fossil fuel driven cars, SUVs, vans and utes with zero emission electric vehicles by December 2030, as ...

The number of electric vehicles in Wellington is growing, and this is expected to continue in the coming years. In response to increased demand, we have installed a network of 34 fast chargers (24kW), in ...

The purpose of this report is to aid the Wellington Region stakeholder organisations (specifically the nine councils and three electricity network companies in the region) with taking a coordinated approach to ...

Wellington currently leads the way in EV adoption with more than two times the national average of EV ownership at (3.38%). Auckland is in second with around 2% of its light passenger vehicle fleet being ...

As the world shifts towards sustainable transportation, government policies and incentives play a crucial role in the adoption of electric and hybrid vehicles.

Find out more about the part we're playing to encourage the uptake of electric vehicles and about our network of fast and rapid EV chargers across the Waikato region.

You might be considering upgrading to an Electric Vehicle (EV) or have started using one at work. Here we've answered some of the frequently asked questions we often receive.

Europcar Mobility Group (Europcar), Z Energy (Z) and the New Zealand Campus of Innovation and Sport

Electric vehicle adoption wellington

(NZCIS) are proud to announce a collaboration aimed at advancing e-mobility ...
