At Wenergy, we position ourselves as a leading hybrid energy storage system company, combining strong R&D capabilities with proven manufacturing expertise to deliver reliable, scalable, and future ...

Power conditioning and distribution cabinet that offers the benefits of a custom-tailored system while offering the convenience and cost savings of a pre-packaged, factory-tested solution.

Discover our high-efficiency, modular battery systems with zero capacity loss and rapid multi-cabinet response. Ideal for industrial, commercial, and emergency applications, our solutions offer remote ...

The ECO-EMS series of products is an integrated energy management system designed for energy storage application scenarios. They enable real-time monitoring, diagnostic warning, panoramic ...

Delta EMS integrates renewables, EV charging, and energy storage, enabling centralized dispatch and AI-driven control for optimized efficiency. It provides real-time monitoring via a graphical interface ...

Safety designs such as water and electricity separation, three-level fire protection + explosion venting + exhaust, liquid cooling + dehumidification design, all ensure the safety of the energy storage ...

Featuring lithium-ion batteries, integrated thermal management, and smart BMS technology, these cabinets are perfect for grid-tied, off-grid, and microgrid applications. Explore reliable, and IEC ...

Crafted from high-quality materials and incorporating the latest in electrical safety technology, our cabinets are available in various configurations to meet the diverse needs of our clients.

All-in-one, high-performance energy storage system for various industrial and commercial applications.

Emergency Command Power Distribution and Energy Storage Cabinet Hybrid Distributor

Highly suitable for all kinds of outdoor applications such as EV charging stations, industrial parks, ...

The Cabinet offers flexible installation, built-in safety systems, intelligent control, and efficient operation. It features robust lithium iron phosphate (LiFePO₄) batteries with scalable capacities, supporting on ...
