The Energy Bureau of Puerto Rico's Public Service Regulatory Board (JRSP, in Spanish) has issued a resolution and order to initiate an informal review process of Regulation 9028 regarding the ...

One of these solutions is microgrids that can disconnect from the grid and offer grid resilience during an outage. While this technology is still finding its footing in the industry, states ...

Countries across Asia, Africa and Latin America are rapidly adopting solar microgrids to electrify remote regions that lack access to conventional grids, according to a microgrid market...

Created by the Department of Energy's (DOE's) Office of Clean Energy Demonstrations (OCED), the ERA program prioritizes investments in solar energy, microgrids, battery energy storage ...

The Energy Bureau isn't just dipping toes in this technology; they're doing a cannonball into the deep end. But why all the fuss about these miniature power networks?

Working closely with industry and other stakeholders, the Office leads the Department's efforts to ensure that the Nation's energy infrastructure is reliable, secure and resilient to disruptions.

While pairing a solar photovoltaic system with energy storage to support a single building (behind the utility meter) may be considered a small microgrid by some, for the purposes of this document we ...

The authors thank the following State and Territory Energy Officials and Public Utility Commissioners of the NASEO-NARUC Microgrids State Working Group (MSWG), as well as NASEO and NARUC staff ...

Our company was successfully listed on the National Equities Exchange and Quotations (NEEQ) in 2017. The stock is abbreviated as Infracwin Energy, with the stock code 871504. Our ...

Energy Bureau actively promotes microgrids

This white paper describes the US DOE microgrid strategy to help create a more resilient, reliable, decarbonized electricity infrastructure.
