This information is drawn from GlobalData's Power Plants database, which provides detailed profiles of over 170,000 active, planned and under construction power plants worldwide.

Developments like Suncor Cogeneration Plant, the Greenlight MPC Gas Power Plant, and Cumberland Combined Cycle Gas Plant are under construction to support the growing power demand.

In 2025, capacity growth from battery storage could set a record as we expect 18.2 GW of utility-scale battery storage to be added to the grid. U.S. battery storage already achieved record growth in 2024 ...

As data centre capacity surges, merchant revenue battery storage play emerges as a consideration, financier says Energy storage is expected to play a significant ...

More than 80 battery peakers with power storage capacities of at least 100 MW are under construction, the largest of which is AES Corp.'s 700-MW Rexford 1 Battery Storage Project, arising ...

Navigate all EIA Form 860M power plant projects by state, developer, or generation type. Access detailed information on operational and planned power plants across the United States.

Pumped storage hydropower has a major role to play in renewables integration, with plans in place to develop several new sites globally. Below we profile the largest of these projects ...

Georgia Power announced today that construction is underway on 765-megawatts (MW) of new battery energy storage systems (BESS) strategically located across Georgia in Bibb, ...

From the UK to the UEA and USA to Australia, Energy Digital Magazine runs through 10 of the most impressive energy storage projects worldwide. Energy storage plays a pivotal role in the ...

Energy storage power station projects currently under construction

Discover the largest battery storage projects in the U.S. for 2025, including Darden, Bellefield, and Swiftsure.
