With advanced liquid cooling, IP55 protection, and rapid deployment capability, it's a powerful and safe energy storage solution ready for demanding environments.

DH800Y is a new-generation fully liquid-cooled, modular energy storage system featuring a 690V medium-voltage grid connection solution. Each cabinet has a capacity of up to 836 kWh and ...

Discover GSL Energy's advanced liquid cooling energy storage systems for commercial and industrial applications. Scalable to 5MWh, certified by UL, CE, CEI and IEC. Improve energy efficiency, ensure ...

Featuring advanced safety mechanisms, intelligent thermal management, and modular design, it ensures reliable and efficient performance for diverse energy scenarios.

The system is equipped with a fully integrated liquid cooling platform, supporting intelligent modes for cooling, heating, circulation, and automatic fluid replenishment.

GSL ENERGY's liquid-cooled BESS solutions have been widely deployed across the globe, from solar parks and microgrids to smart factories and campuses. Our systems enable energy efficiency, ...

Our liquid-cooling energy storage cabinet is engineered for high-efficiency, scalable ESS solutions. It combines top-tier LiFePO4 cells, advanced liquid cooling, and AI-powered safety features to ensure ...

The 261kWh liquid-cooled BESS is an advanced outdoor energy storage cabinet designed for commercial and industrial applications. Featuring a high-efficiency liquid cooling system, it ensures ...

Discover how InnoChill's liquid cooling solution is transforming energy storage systems with superior heat dissipation, improved battery life, and eco-friendly cooling fluids. Learn about the ...

Fully liquid-cooled intelligent energy storage system

With fully self-developed PCS, iEMS, and BMS, the system enables battery cluster-level management and liquid cooling balanced heat dissipation technology. This effectively reduces ...
