---

Under the agreement, the joint venture will develop a renewable energy project in Central Greece comprising a 251.9 MW solar plant coupled with a 375 MWh battery energy storage system. ...

The European Commission approves EUR1 billion in state aid for Greece's Faethon and Seli solar projects, set to add 813 MW of renewable energy with innovative storage.

The Seli Project entails the construction of a 309 MW photovoltaic unit with an integrated lithium-ion battery energy storage system. This project aims to optimise electricity generation and grid stability. ...

Without batteries or pumped hydro plants capable of absorbing excess solar output at midday and releasing it during evening peaks, curtailments will only grow. Policymakers have ...

Greek developer Metlen Energy and Metals has partnered with local maritime firm Tsakos Group to build a 251.9MW solar-plus-storage project in Greece. Under the agreement, the ...

The European Commission has approved EUR1 billion (\$1.08 billion) of Greek measures under EU state-aid rules to support two utility-scale solar projects with lithium-ion batteries and...

The European Commission (EC) has approved EUR1bn (\$1.08bn) in Greek state aid to support the development of two solar-plus-storage projects. These projects, which will enhance the ...

The much-awaited ministerial decree for zero-subsidy standalone battery systems has been published in Greece. So far, Greece has provided support to 900 MW of standalone storage ...

Trina Storage, the energy storage arm of Trinasolar, has signed its first energy storage project in Greece with PPC Renewables, marking a major milestone for the company's expansion ...
