Who is Honeywell Aerospace Technologies?

Honeywell Aerospace Technologies is a manufacturer of aircraft engines and avionics, as well as a producer of auxiliary power units (APUs) and other aviation products. Headquartered in Phoenix, Arizona, it is a division of the Honeywell International conglomerate.

What technology does Honeywell Aerospace use?

Cutting-edge technologies for the aerospace industry including hydrogen fuel cells, atmospheric sensing, space exploration products and microelectronics. Honeywell Aerospace's Electronic Defense Systems offer cutting-edge radar, electronic warfare, and threat detection technologies to enhance mission-critical defense across all domains.

When did Honeywell Aerospace Technologies start?

Honeywell Aerospace Technologies began in 1914. Over nearly a century, through various acquisitions, mergers and name changes, Honeywell Aerospace Technologies combined legacy companies Sperry, Bendix, Garrett AiResearch, Pioneer, Lycoming, Grimes, King Radio and AlliedSignal.

What is Honeywell Aerospace's Electronic Defense System?

Honeywell Aerospace's Electronic Defense Systems offer cutting-edge radar, electronic warfare, and threat detection technologies to enhance mission-critical defense across all domains. Start your search with category name, product name, part number, etc.

Honeywell high-performance engines, auxiliary power units (APUs) and electric power solutions support air transport, business jets, advanced air mobility, and military customers.

Discover Honeywell's advanced cabin and cockpit products, designed to enhance safety, comfort, connectivity, and operational efficiency. Engines, auxiliary power units (APUs) and electric power for ...

Whatever your requirement, we've got it covered: new, used, exchanges, rentals, repairs, and overhauls. Please visit our order status website to view and manage your orders. Discover the ...

Learn how Honeywell can help you deliver on time and on budget. Honeywell UAVs and Urban Air Mobility Systems are designed to make flying as simple as driving.

Honeywell aerospace website

At Honeywell, we're transforming the way the world works, solving your business's toughest challenges. Learn how we can drive your sustainability transformation.

Whatever you need, we have the power, scale, and energy to meet your needs. Check our service offerings for aerospace here!

No matter where you fly, Honeywell flies with you. Our aerospace innovations bring people together, make the world safer and more secure, and help humankind reach for the stars.

Today, Honeywell produces space equipment, turbine engines, auxiliary power units, brakes, wheels, synthetic vision, runway safety systems, and other avionics.

Honeywell equips your aircraft from nose to tail with new, smart Honeywell aircraft systems to maximize fleet safety, optimize operational efficiency and avoid Aircraft On Ground (AOG) situations.
