In this guide, we'll walk you through everything you need to know -- from what tools and materials to use, to how to design, build, and install your very own DIY wind turbine.

Cut the PVC tube into 3 blades, (wood or aluminum can also be used). The shape and size of blades have to be consistent. In our case, we copy a referencing blade but one can easily make it without ...

We hope Bay View will provide a quantum leap in the evolution of the workplace, elevate the benchmark for sustainable design, and inspire the next generations of users and visitors to the building.&quot; Leon ...

These look like small versions of large commercial turbines: a rotor on a horizontal axis (blades rotate in a plane perpendicular to the wind). They tend to be more efficient and are the usual ...

Like a little sister to the Suzhou Museum of Contemporary Art, the Jinji Lake Pavilion seeks to reimagine the future architecture and landscape of the Lake District rooted in the rich heritage of Suzhou's ...

Our latest transformation is the BIG LEAP: Bjarke Ingels Group of Landscape, Engineering, Architecture, Planning and Products. A plethora of in-house perspectives allows us to ...

BIG HQ is BIG's first example of fully integrated LEAP design - a collaboration between Landscape, Engineering, Architecture and Product designers. Everything from door handles to concrete columns ...

BIG (Bjarke Ingels Group) is a multidisciplinary design firm specializing in architecture, engineering, and planning with a focus on innovative and sustainable projects.

# How big are the blades of a homemade wind turbine

Meet the team at Bjarke Ingels Group (BIG). Explore our partners, architects, and specialists shaping the future of architecture and design.

According to The United States Department of Energy, most modern land-based wind turbines have blades of over 170 feet (52 meters). This means that their total rotor diameter is longer ...

This Instructable will give you a step by step process on how to carve a real wind turbine blade out of wood (not those fake ones from a &quot; PVC pipe, but they are cool too.).
