How much electricity is installed in Kyrgyzstan?

A paid subscription is required for full access. The total installed capacity of power plants in Kyrgyzstan reached nearly four gigawatts as of January 1, 2021. The installed electricity generation capacity marked a slight decrease compared to 2018. Get notified via email when this statistic is updated.

How much energy does Kyrgyzstan produce?

Kyrgyzstan's total primary energy supply (TPES) was 3.9 million tonnes of oil equivalent (Mtoe) in 2015 and reached 4.6 Mtoe in 2018. Total final consumption (TFC) totalled 4.2 Mtoe in 2018, and is growing rapidly (+72% since 2008). In 2018, domestic energy production was 2.3 Mtoe, consisting mostly of hydropower (53%) and coal production (37%).

How has Kyrgyzstan improved energy statistics data collection?

Kyrgyzstan has achieved great progress in strengthening energy statistics data collection through the INOGATE programme: the National Statistical Committee has submitted joint annual questionnaires to the IEA since 2014, and for 2015 the breakdown of natural gas consumption by sector had improved.

The total installed capacity of power plants in Kyrgyzstan reached around *** gigawatts (GW) at the end of 2024.

List of power plants in Kyrgyzstan from OpenStreetMap

List of power stations in Kyrgyzstan This article lists all power stations in Kyrgyzstan.

Total energy supply (TES) includes all the energy produced in or imported to a country, minus that which is exported or stored. It represents all the energy required to supply end users in the country.

As global energy storage becomes a \$33 billion industry [1], this mountainous nation is writing its own underdog story. Unlike Tesla's Shanghai Megapack factory pumping out 40 GWh ...

Data and information about power plants in Kyrgyzstan plotted on an interactive map.

How many energy storage power stations are there in Kyrgyzstan

Our dataset for Power stations in Kyrgyzstan is one of the most comprehensive in the industry. As of August, 2025, we have compiled data on 24 verified listings.

Kyrgyzstan has achieved great progress in strengthening energy statistics data collection: the NSC has submitted joint annual questionnaires to the IEA since 2014, and for 2015 the breakdown of natural ...

The residential solar energy storage market size exceeded USD 61.5 billion in 2024 and is predicted to showcase about 18.3% CAGR between 2025 and 2034, driven by increasing emphasis on energy ...

The U.S. company will collaborate with Japanese power retailer and aggregator Global Engineering and engineering firm Ene-Vision to build the energy storage facility connected to the grid with 6,095 ...
