Combined with a strong emphasis on smart grid technology integration, Huake is poised to play a significant role in the future of energy distribution and management.

We provide 25 years limited warranty on 80% power output of our panels while providing 5 years warranty on materials and workmanship. We are focused on proving the quality and affordable solar ...

2023 International Conference on Power System Technology (PowerCon)

Huake is the first company (the pioneer) in China to adopt the Wind Pressure Push Variable Pitch Technology in the development and production 1KW, 2KW, 5KW wind turbines.

And it is the only Asian enterprise that possesses the core patented technology of full range of small and medium-size wind generators, and the largest Wind-Solar-LED Integrated manufacturer in China.

By carefully evaluating load requirements, fuel options, efficiency, and maintenance needs, you can select a Huake generator that delivers dependable power, optimal performance, and long-term value.

We specialize producing small and medium sized wind driven generator series, solar photovoltaic panel series and LED lighting series of products. As a new energy technology company, we have been ...

HUAWEI FusionSolar advocates green power generation and reduces carbon emissions. It provides smart PV solutions for residential, commercial, industrial, utility scale, energy storage systems, and ...

Huake is a high and new technology enterprise which specialized in development, production, sales of new energy products of 400w to 50kw Wind Turbine system, Led Light and Solar Panels.
