-----

Purchase the SU700B-11R0G3 VFD, a high-performance 11KW 15HP frequency inverter designed for industrial motor control. Features 3-phase 380V input/output, 25A rated current, and compact design ...

When interfacing three-phase grid, the design can convert steady state maximum power of 11 kW in both power-flow directions, i.e., either PFC mode or inverter mode, with peak efficiency of 99.15 % ...

Included. AC Line Regenerative?: No.

11 kW variable frequency inverter, 3 phase 220V, 400V, 460V, Input frequency 50Hz/ 60Hz, output frequency 0~1000Hz, and RS485 communication mode. Equipped with an intelligent cooling fan, the ...

11.0kW AC310 VFD with 50.0A output for 220V single or 3-phase is a vector AC drive designed for industrial motor control. Delivers dependable speed and torque control for automation panels.

USFULL 11kw VFD Frequency Inverters provide variable speed control for industrial motors. Ideal for 380v, three-phase applications. CE/ISO9001 certified.| Alibaba .

EXCELLENT PERFORMANCE: With the copper coil of good quality, this VFD drive is safer and more durable. It adopts the multi-grid design with enough cooling space between the electronic ...

The 11 kW 15HP inverter automation drive frequency converter provides precise motor control for industrial applications. It enhances efficiency, reduces energy consumption, and supports variable ...

Deliver 11 kW power with an integrated inverter, charge controller, and AC charger. Supports bi-directional 48 V DC to 240 V AC conversion with pure sine wave output, ensuring reliable ...

This 11.0KW VFD inverter is designed to provide precise and efficient motor control, ensuring stable operation and protection against various faults in demanding industrial settings.
