What is an outdoor cabinet used for?

Outdoor cabinets can be used in a variety of settings such as CCTV monitoring of the train, track and platform; or to house trackside functional electronics such as communications between the track and the train, or the signal box and the train.

What are standard outdoor cabinets?

Standard outdoor cabinets are available in a variety of sizes and manufactured from materials such as stainless steel, aluminium or with a galvanised finish. These standard cabinets include an extensive range of hardware and can even be fully wired and terminated to suit customer requirements.

What are WEC rail rolling stock cabinets?

On-board the train there are many electrical systems which require housing capable of withstanding extreme conditions. WEC Rail rolling stock cabinets are designed to withstand and resist harsh conditions such as shock, vibration and temperature, thus protect the electronics they house.

Does WEC rail offer bespoke cabinets?

WEC Rail offers bespoke cabinets especially for mobile environments; the cabinet dimensions can be altered to cater for unique location difficulties, enabling the available space to be used to full effect. Products are available in a selection of colours, and are available on a short lead time basis.
