Since taking office, Mayor Bass has made significant strides in building greener, more resilient infrastructure in Los Angeles. This project is possible through a collaboration between ...

A giant clean power plant in Mojave stores solar electricity for use after the sun sets. It feeds Los Angeles and Glendale, providing 7% of L.A.'s need for power.

Mayor Karen Bass unveiled the Eland Solar-plus-Storage Center, one of the nation's largest solar and battery energy storage systems, poised to revolutionize Los Angeles's energy...

The Solar Marketplace is a platform that connects Los Angeles residents who are LADWP customers with solar energy providers. The goal is to compare offers from top solar companies in Southern ...

L.A. Mayor Karen Bass on Tuesday announced the completion of a major new solar and battery storage project. The sprawling field of solar panels and batteries in the Mojave Desert is now ...

Arevon Energy announced the completion of the two-phase Eland solar-plus-storage project, sited in Kern County, California. The project had capital costs of over \$2 billion and is one of ...

Both phases of Arevon's Eland Solar-plus-Storage Center in Los Angeles, California, comprising 758MW of solar PV and a 1,200MWh battery storage system, are complete.

By pairing utility-scale solar with advanced energy storage technology, Eland delivers low-cost electricity to meet LA's growing energy needs -- including when demand spikes.

Combined, the Eland 1 & 2 projects will be able to power more than 266,000 homes annually, and overall, can provide 7% of the total electricity requirements for the city of Los Angeles.

Los Angeles Photovoltaic Energy Storage

"This large-scale solar installation and battery storage system will generate enough power to serve about 250,000 homes in Los Angeles and once fully operational, it will help push the ...
