-----  
Are exports taxable in Madagascar?

Exports are zero-rated. Excise duties are levied on certain products imported to or manufactured in Madagascar at rates varying between 5% and 325% or at fixed amounts per litre or per unit: tobacco, alcohol, lighters and certain services including telephone communications.

What is import VAT in Madagascar?

Import VAT is due on the importation of goods into Madagascar. VAT is payable to the customs department. The rate of import VAT is the same as the rate that applies to a domestic supply of goods. It is payable on the value of the goods, including cost, insurance and freight (CIF) and duty.

What is the tariff rate on imports from Madagascar?

Tariffs are taxes imposed on imported goods and services. Currently, the tariff rate for 15% applies to imports from Madagascar. This represents additional costs that importers pay when bringing goods into the United States from Madagascar. Furthermore, this rate can change based on trade agreements, economic conditions, and government policies.

How are capital gains taxed in Madagascar?

Capital gains are taxed as ordinary income. Capital gains realised from the sale of shares held in a company of which the entire or partial value is derived from goods located in Madagascar, or from rights thereof, are subject to tax at a rate of 20%. The rates of depreciation vary from 5% to 33%.
