Where can I buy plywood in the Philippines?

Plywood is a very useful material due to its many applications, especially in the construction industry. CPME Industrial Sales Corp. offers the best quality of plywood for sale here in the Philippines. Contact CPME today to learn more. CPME Industrial offers plywood for sale in varying materials, grades and dimensions.

How to choose a reliable plywood supplier?

Selecting a reliable plywood supplier requires evaluating critical criteria. Prioritize manufacturers compliant with Philippine National Standards (PNS) for plywood (PNS 196:2015) and international certifications like ISO 9001 for quality management. Verify DENR accreditation to ensure sustainable timber sourcing and legality.

What materials are used in construction in the Philippines?

Being one of the most common building materials, plywood can be made of hardwood such as mahogany and oak, or softwood like pine and cedar. It can also be reinforced with timber, plastic, resin and metal for added support. Plywood in the Philippines has several uses in the construction industry, from home improvement to mega construction projects.

Is plywood a good flooring material?

Impact-resistance - Plywood is designed to carry twice its design load, making it an ideal flooring and frame material that can withstand strong cyclones and earthquakes. Water- and fire-resistance - Especially when coated with paint or varnish, plywood is greatly resistant to damages from constant exposure to moisture and humidity.
