Explore the real-time dynamics of a microgrid in this detailed simulation demo using OPAL-RT's high-fidelity simulation environment.

NLR is collaborating with the San Diego Gas & Electric Co. to model a microgrid in Borrego Springs, California, and evaluate how a microgrid controller with advanced functionality ...

Check out our full playlist on ! The Eaton Power Systems Experience Center (PSEC) explains microgrids and how the facility's full scale microgrid demo minimizes power disruptions, improves reliability, increases electrical efficiency and intelligently uses multiple sources of energy.

CERTS has made major contributions to the industry adoption of microgrids through the development of a set of advanced microgrid control and integration techniques, known collectively as the CERTS ...

EMerge Alliance, along with its industry partners, each year builds an operating microgrid that is displayed at the RE+ renewable energy conference. This year's show is scheduled Sept. 8-11 ...

Will Hydrogen Microgrids Really Go Green and Become the Next Big Thing? Recent microgrid demonstration projects in Scotland, Germany, South Africa and southern California aim to ...

This demonstration home by SoCalGas is a first of its kind, using solar, storage, an electrolyzer, and the Generac ARC microgrid controller to convert solar energy to hydrogen.

Pilot demonstration of advanced technologies for Microgrid using distributed energy resources is key to meet the clean energy goals around the world. Diverse scale implementation ...

This year's microgrid will feature the use of hydrogen to power microgrids, featuring a fuel cell generator and a bi-directional charging EV. Get a preview of the build at Grid Edge Theater (which will be ...

Microgrid Demonstration

We have gathered information for the following microgrid demonstration projects from around the world. If you know of other sites and would like them listed here, please contact the site administrators.
