From hybrid systems that prioritise solar power and use the grid only as backup, to fully off-grid setups for total energy independence, our solar solutions are designed for long-term performance and ...

Namibia has achieved a significant milestone in its renewable energy journey with the launch of its first merchant solar plant. The 19.3 MWp Gerus Solar plant, developed by Solarcentury ...

Each system incorporates a unique all-in-one inverter/charger that is able to charge batteries from solar with the integrated MPPT solar charge regulator as well from a generator/grid connection while at the ...

Over the long-term, the government and NamPower have committed to making Namibia energy self-sufficient (and eventually a net exporter of power) by building new domestic generation ...

Operating independently of any outside power source, the HES stand-alone power generation system operates in a self-looping, self-regenerating fashion, powering itself while simultaneously powering ...

We have a proven track record - we are the leading solar power company in the sunbelt countries where climate conditions are extreme. If ground mounted or installed on roofs, grid ...

Given recent disruptions to South Africa's power supply, to what extent will solar power help ensure energy availability in Namibia and reduce reliance on imports?

Browse our selection of power and energy equipment, including solar panels, inverters, batteries, generators, and more. Whether you need portable generators for emergencies or comprehensive ...

Lights Systems Namibia (LSN) was appointed to install a 42.1kWp Solar PV system at the head office of the European Delegation. The installation involved solar panels being installed on the ...

Namibia warehouse solar power generation for home use

Equipped with cutting-edge Victron Energy inverters, solar chargers (MPPTs), and STORAGEDOCK "prime life" lithium iron phosphate batteries, these units ensure unmatched reliability and performance.
