The Department of Energy's (DOE) Energy Storage Strategy and Roadmap (SRM) represents a significantly expanded strategic revision on the original ESGC 2020 Roadmap.

All of the states with a storage policy in place have a renewable portfolio standard or a nonbinding renewable energy goal.

-- Today the Solar Energy Industries Association (SEIA) is unveiling a new policy agenda that details the critical actions that local, state, and federal leaders must take to strengthen the ...

This page describes the patchwork of federal, state, and local policies and regulations pertaining to renewable energy systems that impact project development.

The National Renewable Energy Laboratory (NREL), Sandia National Laboratories (SNL), SunSpec Alliance, and Roger Hill were supported by the U.S. Department of Energy (DOE) Solar Energy ...

A policy primer exploring how energy storage technologies work, the benefits that storage can deliver to the electric grid, the current legal and regulatory barriers to adoption, and policy ...

This article examines the key federal policy risks that lie ahead, their potential economic implications, and strategies that industry players can employ to mitigate adverse effects.

As the United States grapples with shifting political winds, developers in the distributed solar and storage market are facing a potential policy storm.

Solar-Plus-Storage Analysis For solar-plus-storage--the pairing of solar photovoltaic (PV) and energy storage technologies--NLR researchers study and quantify the economic and grid ...

National policy on photovoltaic energy storage

At the federal level, there are several key policies, programs, and regulations that impact the development of solar PV and other renewable energy projects, influencing project procurement ...
