Norwegian Crystals (NCR) has signed a binding term sheet with a European major for annual production and delivery of up to 3GWp of monocrystalline silicon wafers per year for a ...

Norwegian Crystals (company). Norwegian Crystals is a company from Norway manufacturing high-quality and cost-efficient monocrystalline silicon products, which become a key component of solar ...

Norwegian Crystals manufactures solar panel components and caters to the renewable energy sector. It primarily offers monocrystalline silicon products, such as bricks, wafers, and ingots for solar panels.

Among the key players in this transformative journey are Otovo Norway and other Norwegian solar companies, which are at the forefront of developing and manufacturing cutting-edge solar technologies.

We conduct "frontier research" for the entire PV-chain with the main focus on silicon production, crystallisation and wafering.

Elsewhere, REC Solar Norway is making solar cell silicon at its factory in Fiskaa, outside Kristiansand, in Southern Norway. Its patented process produces super clean silicon.

NorSun is a Norwegian solar energy company that manufactures and markets high performance mono-crystalline silicon ingots and wafers for the global solar energy industry.

Building blocks for the world's solar panels. NorSun produces high-performance n-type wafers, and is an established supplier to several of the world's leading solar cell manufacturers. It is in fact the leading ...

Located in Glomfjord in Northern Norway, Norwegian Crystals (NCR) has access to clean hydropower, glacier cooling water, and a skilled workforce with a rich tradition in the solar industry...
