---

We've supplied stamping molds and components to leading battery manufacturers for EVs, energy storage, and portable electronics. Our clients consistently report improved production ...

The connection piece of the photovoltaic junction box is a key metal stamping part used for current transmission in photovoltaic modules. Its design and manufacturing quality directly affect the ...

We offer prototype molds and high-volume production molds, including Class I warranted molds and Class 101 tooling with hardened steel cores and cavities. We have made or sourced a variety of ...

Shanghai Chunri New Energy Technology Co; Ltd. (SHCR), the precursor of Shanghai Chunri Metal Product Co., Ltd, is a professional manufacturer of stamping parts for wind, photovoltaic projects and ...

Our solutions are designed to meet diverse application needs, whether through laser cutting, bending, or welding in fabrication or through stamping processes to achieve high-strength and intricate shapes.

As a company certified by ISO 9001: 2015, we have full range of sheet metal capabilities to meet customers' different demands like laser cutting, CNC bending, stamping, deep drawing, welding etc. ...

Dongguan Fortuna Metals Co., Ltd. can design, process and manufacture metal stamped photovoltaic connection terminals according to customer drawings, which is also a type of photovoltaic connector.

When you're looking for the latest and most efficient Photovoltaic bending plate stamping mold for your PV project, our website offers a comprehensive selection of cutting-edge products designed to meet ...

Development, design and processing of Stamping Mould and its products.

Progressive Metal Flange Stamping for Photovoltaic and Construction Industry Press Punching Mould
