E-Houses are customized, prefabricated substation (pre-assembled, pre-tested) modular power substations. Providing electrical power - to wherever it's needed.

Smaller distribution substations are subdivided into container-sized modules, which can be manufactured, assembled and tested at the factory, allowing easy transport and fast installation and ...

A container-type mobile substation is like a portable powerhouse sealed within a robust container. It houses all the essential components of a substation, including transformers, switchgear, and control ...

Options include substations delivered via trailer, skid or platform. They can fit in an existing footprint or just about any space you have available - without disturbing existing conduits or cables.

This design method concentrates key substation functions such as high-voltage (HV) switches, transformers, protection, and metering into a single modular unit that is easy to transport and can be ...

The modules contain all components for a complete substation, from the power transformer and AIS or GIS switchgear to medium- and high-voltage cables, protection, monitoring and control systems, and ...

Discover Brunstock's prefabricated substations--engineered for efficiency, safety, and easy installation. Ideal for compact, high-performance power distribution solutions.

Empower your operations with Topband's mobile energy storage system and portable energy storage solutions. Our energy storage cabinets and energy storage battery cabinets deliver ...

Electrical Substation Equipment (RMUs, Switchgear, Transformers, DC Systems & Panels). We offer 3

Portable power storage cabinets for substations in Central and Eastern Europe

Ranges of Switchgear to suit various budgets (Western European, Turkish & Chinese)

IMG designs and manufactures various portable power distribution equipment used to convert incoming power in order to supply specific voltages to electrical equipment at site.
