Why should you use prst for your solar project staffing needs?

Lean on PRST for your solar installer and solar project staffing needs, and together we'll leave a lasting influence for generations to come. At face value, solar installers place panels on rooftops or in solar farms. But, it's so much more than that. Solar assemblers and installers are at the heart of a more sustainable future.

How much do solar photovoltaic installers make a year?

The median annual wage for solar photovoltaic installers was \$51,860 in May 2024. Employment of solar photovoltaic installers is projected to grow 42 percent from 2024 to 2034, much faster than the average for all occupations. About 4,100 openings for solar photovoltaic installers are projected each year, on average, over the decade.

How do I become a solar photovoltaic installer?

There are multiple paths to becoming a solar photovoltaic (PV) installer, or PV installer. These workers typically need a high school diploma, but some take courses at a technical school or community college; they also receive on-the-job training lasting up to 1 year. Some PV installers learn to install panels as part of an apprenticeship.
