How the scam works: People posing as solar installers or utility employees call or come to your home and offer free solar panels through made-up government programs or incentives.

Learn how to spot solar panel fraud, avoid predatory contracts, and take action if you've been scammed, with guidance from Prevost Law Firm.

It's likely a scam. While there are some government-funded solar programs for households that qualify, "going solar" isn't free. Honest businesses will tell you exactly how much it'll ...

These scams start with an unexpected phone call, message on social, or even an in-person visit. The so-called official offers you an "energy audit" to reduce your utility costs. Or they might try to sign you ...

No information about the cost to remove or transfer solar panels, which could lead you to believe you have future options that might not be available or affordable

This article explores the most common solar panel scams, provides tips to recognize red flags, and offers guidance on protecting yourself from fraudulent solar companies.

To avoid getting scammed, you need to know what to look out for and when to walk away. Here's our guide to spotting solar panel scams and finding a great installer.

Legitimate solar savings come from reduced electricity bills, not from special programs or guaranteed tax payouts. You can be an informed solar shopper and increase your chances of ...

Legitimate solar savings come from reduced electricity bills, not ...

The demand for solar energy is skyrocketing across the nation. This is great news! However, as the solar industry grows and more companies compete for your business, you might ...

Rural photovoltaic panel scam

Scammers across the U.S. are going door-to-door, pitching "free" solar energy systems. Many homeowners never get any solar equipment installed; those who do often get shoddy work.
