Who is Longi Green Energy Technology?

Xi'an, China, 29th August, 2024 -- The world-leading solar technology company, LONGi Green Energy Technology Co., Ltd. (hereafter as "LONGi"), released its semi-annual report for 2024. Amidst the continuous transformation and challenges in the PV industry during the first half of 2024, the company achieved a revenue of 38.529 billion yuan.

How did the PV industry perform in the first half of 2024?

Amidst the continuous transformation and challenges in the PV industry during the first half of 2024, the company achieved a revenue of 38.529 billion yuan. Silicon wafer shipments totaled 44.44 GW (with 21.96 GW sold externally), while solar cell sales reached 2.66 GW externally.

How many solar cells did Longi Green Energy Technology sell in 2025?

(Photo Credit: LONGi) LONGi Green Energy Technology has reported cumulative external solar cell and module sales of 63.43 GW between January and September 2025. The total includes 14.48 GW of back contact (BC) modules, featuring the company's advanced Hybrid Passivated Back Contact (HPBC) 2.0 technology.

Does Longi Green Energy Technology have a net loss?

LONGi's operating revenues declined during the reporting period, but its net loss narrowed. (Photo Credit: LONGi) LONGi Green Energy Technology has reported cumulative external solar cell and module sales of 63.43 GW between January and September 2025.

Major Chinese solar power company LONGi Green Energy Technology Co Ltd aims to double its sales of photovoltaic modules and largely expand those of silicon wafers this year to tap ...

LONGi has long prioritized addressing its customers' primary concern--reducing the cost of PV power generation--and has implemented significant innovations to achieve this goal. However, ...

On October 30, 2025, the world leading solar technology company LONGi released its financial results for 2025 Q3. From January to September this year, the company achieved an operating revenue of ...

In the face of continuous market changes in the photovoltaic industry, LONGi achieved a significant

Sales volume of photovoltaic panels of Longi

year-on-year increase in sales volume of over 140% in the Asia-Pacific region in the first ...

Sales volume of photovoltaic panels of Longi How did the PV industry perform in the first half of 2024? Amidst the continuous transformation and challenges in the PV industry during the first half of ...

LONGi's 9M 2025 module shipments represent nearly 24% year-on-year (YoY) growth over shipments of 51.23 GW in 9M 2024, which comprised 13.77 GW of BC modules. Its external ...

Xi'an, China, 29th August,2024 -- The world-leading solar technology company, LONGi Green Energy Technology Co., Ltd. (hereafter as "LONGi"), released its semi-annual report for 2024. Amidst the ...

LONGi has published its financial report for the first half of 2024. The integrated Chinese module manufacturer generated revenues of the equivalent of 5.03 billion euros in the period. One ...

PVTIME - On 29 April 2024, LONGi, the global leader in photovoltaic technology, has released its annual results for the 2023 fiscal year. This PV giant achieved an income of 129.498 ...
