Solar power is a growing source in the Portuguese energy mix. Solar power contributes 6.72 TWh of generation to the Portuguese grid, accounting for 14.5% of total electric power generation as of 2024 with 5.81 GW of installed capacity. Portugal has set a goal of between 8.1 GW and 9.9 GW in installed capacity by 2030.

This page provides detailed insights into the solar landscape of Portugal, offering valuable information for

# Solar energy in Porto Portugal

professionals and enthusiasts in the renewable energy sector.

Explore the solar photovoltaic (PV) potential across 173 locations in Portugal, from Mon&#231;&#227;o to Funchal. We have utilized empirical solar and meteorological data obtained from NASA's POWER API to ...
