In this piece, we'll review the primary factors determining how much you'll need to pay your utility company after installing a solar panel system, including solar electricity production, net ...

Solar can't offset certain utility fees. Most electric companies charge mandatory customer fees that you need to pay even if you have solar panels. Your home uses more energy than your solar panels ...

MONTGOMERY, Ala. (AP) -- A federal judge has refused to dismiss a lawsuit against the Alabama Public Service Commission over fees it allows Alabama Power to charge customers who use solar ...

Residential customers who enroll in the Solar Billing Plan will be transitioned to the TOU-D-Prime rate and will be charged the full retail rate for all energy that they consume. For more information on the ...

One of the most common questions homeowners have is: "Will I still get an electric bill after installing solar panels?" The answer depends on your system size, your utility company, and ...

Alabama Power plans to discontinue a fee on third-party power projects that critics said would discourage the development of renewable power.

Based on our most recent analysis, we estimate that by the end of 2024, approximately 16-23% of the average non-rooftop solar household's electricity bill will go to subsidizing the program across all ...

Raising flat monthly charges or adding other hidden fees has become a common tactic of utilities nationwide, in part to discourage customers from investing in renewable energy and efficiency. But ...

Charge everyone a grid access fee of \$3/kW of solar. Thus, people without solar get charged \$0, but someone with a 7kW system gets charged \$21. Have each bill be a minimum of \$35, no ...

Solar power plants will charge electricity fees

Aside from customer charges, solar does reduce your utility bill. Your solar panels access the sun's energy, thereby using less energy as provided by your local utility company. The actual amount you ...
