The 261kWh liquid-cooled BESS is an advanced outdoor energy storage cabinet designed for commercial and industrial applications. Featuring a high-efficiency liquid cooling system, it ensures ...

Engineered for large-scale projects, it integrates cutting-edge LiFePO4 (LFP) battery cells, advanced BMS technology, and a high-efficiency liquid-cooling system, ensuring maximum safety, reliability, ...

This outdoor battery cabinet incorporates advanced liquid cooling technology. With its high level of system integration, it offers easy installation and enhanced efficiency.

The standard liquid cooling energy storage cabinet achieves 40% better thermal stability than air-based systems, according to 2023 data from the International Renewable Energy Agency.

Standardized and scalable design for long-lasting, intelligent energy storage. Compact footprint with high single-cell energy density. Single cabinet footprint reduced by over 20%, with multi-unit scalability for ...

The SolaX ESS-TRENE is an all-in-one C& I energy storage cabinet, in liquid cooling model. Equipped with high-performance LFP cells, advanced energy management, and robust safety features, suitable ...

Designed for industrial and commercial energy storage applications, these solutions ensure safety, reliability, and optimal performance with advanced liquid cooling technology and a 10+ ...

All-in-one design with liquid cooled battery rack pre-installed and a plug and play interface for auxiliary power supply, communication, and DC connection, which can be installed as a ...

Engineered with Grade A LiFePO4 cells, multi-level protection, and AI-powered monitoring, our liquid-cooling storage cabinet delivers safe, efficient, and scalable energy solutions for modern power needs.

Standard power scale liquid-cooled energy storage cabinet

The MEGATRONS 373kWh Battery Energy Storage Solution is an ideal solution for medium to large scale energy storage projects. Utilizing Tier 1 LFP battery cells, each battery cabinet is designed for ...
