Will a new battery storage facility strengthen Ukraine's grid?

Sept. 10, 2025. (Bohdan Nazarenko/DTEK) Ukraine's biggest private energy firm, DTEK, has launched a major battery storage facility that will bring power to hundreds of thousands of homes and strengthen the grid ahead of expected Russian attacks this winter, the company said.

How many gas storage facilities are there in Ukraine?

Ukraine has 12 gas storage facilities operated by Ukrtransgaz. Five of these are located in Western Ukraine, two in Central Ukraine and five in Eastern Ukraine. In addition one gas storage, the Hlibivske storage facility, operated by Chornomornaftogaz, is located in Crimea and currently is not controlled by Ukraine authorities.

Does EBRD support Ukraine's energy security?

The European Bank for Reconstruction and Development (EBRD) is supporting Ukraine's energy security by lending EUR 22.3 million to private Ukrainian energy company Power One for the financing of new peaking generation capacity and battery energy storage systems (BESS).

Are Ukraine's energy reserves still untapped?

Yet, these enormous reserves of energy remain largely untapped. Today, Ukraine has a low annual reserve usage rate of about 2 percent. Moreover, more active exploration may yield previously undiscovered gas fields, which would further increase the overall volume of Ukraine's deposits.

Ukraine's transition to a low-carbon, secure, and EU-integrated energy system has accelerated the deployment of renewable energy and highlighted the critical role of energy storage.

In the spring of 2025, Ukraine's energy sector finds itself at a crossroads. Underneath the constant hum of reconstruction and the lingering threat of war, a quiet revolution is unfolding:...

Ukrainian private utility DTEK has energised the largest battery storage project in the war-torn country and one of the biggest ones in Eastern Europe. The 200 MW/400 MWh installation ...

DTEK company, together with American Fluence, have completed the construction of the largest energy storage system (BESS) in Eastern Europe, which will provide Ukrainians with stable ...

Ukraine office energy storage

Against the backdrop of energy transition and geopolitical challenges, Ukraine has reached a new energy milestone. DTEK, Ukraine's largest private energy company, in collaboration ...

The project includes six battery energy storage systems of varying capacities - from 20 to 50 MW each - connected to the Ukrainian power grid. Collectively, the systems have the capacity ...

The European Bank for Reconstruction and Development (EBRD) is supporting Ukraine 's energy security by lending EUR22.3 million to private Ukrainian energy company Power One for the ...

Ukraine's biggest private energy firm, DTEK, has launched a major battery storage facility that will bring power to hundreds of thousands of homes and strengthen the grid ahead of expected ...

Despite the many challenges of building energy projects in a war zone, Ukraine's largest battery energy storage project has entered its final delivery phase - ahead of schedule.

Ukraine's energy storage market is exploding amid crisis. Explore key drivers, investment opportunities in utility, C& I, and residential segments, and strategies for entering this high-growth frontier.
